

INVEST PIVDEN
— AGRO INNOVATIONS & PRODUCTION —

NATURAL PRODUCTS FROM SOUTHERN UKRAINE

Premium quality lavender essential oil
and hydrolate.

✓ B2B Partnership | Bulk Supply

ABOUT THE COMPANY

INVEST PIVDEN

— Ukrainian manufacturer of natural lavender raw materials

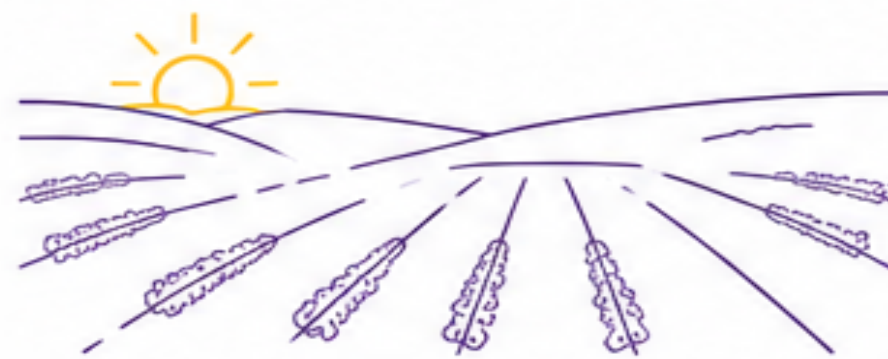

FULL CYCLE

We cultivate our own fields and use high-tech processing — from field to finished product.

FOUNDED IN 2019

The year of foundation and stable supplies of natural lavender raw materials to the market.

SOUTHERN UKRAINE

Malodvorianka village, Voznesenskyi district, Mykolaiv region.

100% CONTROL

Production philosophy “from field to finished batch” — quality guaranteed at every stage.

OWN LAVENDER PLANTATIONS

03

Lavandula angustifolia • controlled origin of raw materials

15 HECTARES

of our own land planted
with true lavender.

SOUTHERN UKRAINE

Malodvorianka village,
Voznesenskyi district,
Mykolaiv region.

FULL CONTROL

cultivation, harvesting and distillation
within one integrated cycle.

FROM FIELD TO DISTILLATION

No transportation of freshly cut raw material

Key advantage: mechanized harvesting and steam distillation directly near the field

01

MECHANIZED HARVESTING

Lavender is harvested by tractor at the optimal flowering stage.

02

FIELD DISTILLATION

Raw material is immediately delivered to the distillation unit located near our plantations.

03

STEAM DISTILLATION

Autonomous heat source ensures stable operation without waiting for transportation.

Minimal time between cutting and distillation → lower loss of volatile aromatic compounds

LAVENDER ESSENTIAL OIL

Lavandula angustifolia • natural B2B raw material

100% Pure Essential Oil

No dilution or synthetic fragrances.

Direct Steam Distillation

Produced immediately after mechanized harvesting.

B2B Packaging

250 ml • 500 ml • 1 L • 5 L

Documentation & laboratory analysis —
available upon request from B2B partner.

QUALITY CONTROL

07

Independent laboratory analysis of lavender essential oil

APPROVED BY
Director of "Chrom Service" LLC
Olha ZHUKEVYCH

TEST REPORT of Expert Examination

Kyiv, Ukraine

03.08.2026

Sample received: 26-07-16-1
Sample type: Essential oil
Customer: INVEST PIVDEN LLC (+380662560077)
Sample quantity: 1
Sample description: Lavender essential oil.

Analysis details

Type of analysis: Qualitative and quantitative composition analysis.
Analytical method: Gas chromatography Agilent 6890N; mass spectrometric detector 5973 MSD; NIST MS Search Library / NIST/EPA/NIH.
Data processing: AMDIS software, version 2.73; mass spectral library.
Date of analysis: 20.07.2026–29.07.2026.

1. No peaks of diluents or retention time shifts were detected, and the spectrum matches the library with a match factor > 90 %.
2. The content of the indicated components is not a certificate of product quality.
3. Sample code (ID): 26-07-16-1.

4. Range of quantitative analysis – 40–60 %; helium atmosphere – 99.4–100 % vol.
5. The analysis was performed using GC-MS (gas chromatograph with mass-spectrometric detector).

GC-MS Confirmed Composition

Actual values from the laboratory report

25,45%

Linalool / Linalool

21,96%

Linalyl acetate / Linalyl acetate

Documented Quality Assurance

The laboratory report is provided to B2B partners for raw material evaluation and integration into their own formulations.

We confirm quality with documents, not just decorative images

WHO WE WORK WITH

08

Raw materials for professional manufacturers and brands

01

COSMETICS

Oils and hydrolates for creams, toners, serums and skincare formulations.

02

PERFUMERY

Natural aromatic raw materials for fragrance compositions and branded lines.

03

SOAP & HOUSEHOLD CHEMICALS

Raw materials for soaps, diffusers, candles and aroma-enhanced products.

04

SPA & WELLNESS

Professional aromatic raw materials and wellness products.

B2B PARTNERSHIP

09

Transparent terms for manufacturers, distributors and retail chains

SAMPLES

We provide samples of essential oil and hydrolate for laboratory testing.

BULK ORDERS

We select packaging to meet our partner's production needs.

DOCUMENTATION

Laboratory report and information on the origin of raw materials.

LOGISTICS

Shipping across Ukraine and preparation of export deliveries.

Additional seasonal offering: fresh Loch Ness variety lavender — bulk supply
